EQUAL SUFFRAGE AMENDMENT GETS HOUSE APPROVAL

Less Than Three Hours
Debate Precedes
Its Passage.

By Associated Press Leased Wire
Washington, May 21.—The woman suffrage constitutional amendment resolution passed today by the house after less than three hours debate.

The vote was 304 to 88, or 42 more than the necessary two thirds majority. The resolution now goes to the senate where supporters plan to urge speedy action.

By Associated Press Leased Wire
Washington, May 21.—Consideration of the equal suffrage constitutional amendment resolution began in the house shortly after noon today under an agreement to close general debate in two hours and with leaders expecting a vote immediately afterwards.

In calling up the resolution Representative Mann, republican of Illinois, chairman of the woman suffrage committee, asked unanimous consent to extend the time for debate to 5 o'clock, but Representative Ferris, democrat of Oklahoma, refused to agree.

Representative Little, republican of Kansas, opened the debate with an address in support of the resolution. Practically all members of the house were in their seats when debate began and the galleries were fairly well filled. Among the spectators were many representatives of suffrage organizations.

Some efforts by opponents to amend the resolution were expected but supporters were confident the measure as presented would be passed by an overwhelming vote.

SUFFRAGE AMENDMENT UP
By Associated Press Leased Wire
Washington, May 21.—The woman suffrage resolution, before congress for more than 40 years, was taken up in the house today as the first real work of the extra session. Four hours of debate and adoption of the resolution before adjournment were planned.

The resolution is the historic Susan B. Anthony draft, proposing submission to the states of an equal franchise amendment to the constitution. It was adopted by the last house 274 to 136 on January 10, 1915 but twice failed in the senate first by two votes and then by one.

Big Majority Expected
A large margin over the requisite two-thirds majority was predicted today. The vote was expected about 6 o'clock.

With favorable action in the house regarded assured, senate leaders were prepared to act promptly. They plan to secure a vote early next month.

With changes in the new senate, suffrage advocates believe the resolution will succeed in the senate although by a small majority over the necessary two-thirds majority.

Mann in Charge.
Representative Mann of Illinois, republican, chairman of the house suffrage committee was in charge of the resolution today in the house, while Representative Saunders of Virginia, democrat, was regarded as the opposition leader.

The resolution was reported favorably yesterday at a busy meeting of the committee with republican leaders arranging to give it right of way today.

It was pointed out that of the house membership today 304 were members of the last house, 203 of whom had previously voted for the resolution, 100 against, and one not voting.

MAY 29 AND JUNE 9 WILL BE RED LETTER DAYS FOR MEMBERS OF DIXON LODGE B. P. O. E.

PROPERTY OWNERS ON DIXON AVE. KICK ON GRADE OF SIDEWALKS

City Council to Change
Grade Despite Engineer.

Heated words were exchanged at last evening's meeting of the city council in connection with the east end pavement improvement which is now under way. The words were not directed at any one individual but were made to cover a large field. That part of the improvement most concerned is between Third and Fourth streets on Dixon avenue and a delegation of property owners was present and they voiced their sentiments in a very plain and understandable manner. All were of the mind that they had favored an improvement, but were now receiving a damage.

City Engineer Nesbit was called upon and stated that the wrong could not be righted. The property owners contended that the sidewalk stood several inches below the curb grade and was unsightly and prayed the council to take one step to remedy the mistake. Warm words between some of the property owners who contended that they would not have such an improvement in front of their homes, and the city engineer who took the reverse stand followed.

Mayor Expressed Opinion
Mayor Smith entered into the spirit of the thing and stated that he knew nothing of the art of engineering but that he had viewed this piece of work on two occasions and considered it a "very small engineering trick to right the wrong." The city clerk, who also owns property along the improvement, was an enthusiastic objector and expressed his views very plainly. After a lengthy discussion, the council voted to a man to meet at the city hall this morning at 7 o'clock and go in a body as the board of local improvements to the scene and there meet with the contractors in an effort to remedy the mistake before the concrete paving is laid.

BIG RECEPTION FOR MAJ. GENERAL HAAN IN INDIANA

The following dispatch from Hammond, Ind., will be of interest to many Dixon people, friends of Major General Haan, who at one time was connected with the Dixon College faculty:

Twenty-five years ago former Congressman Thomas J. Wood induced Will Haan, a farmer's son who walked ten miles to and from school at Crown Point every day, to go to West Point. Wood got Haan an appointment.

FARMER LEFT LYING IN ROAD BY SPEEDER

Freeport, Ill., May 20.—Lilman Gingrich, a farmer living east of this city, is in a critical condition as a result of injuries received Saturday night when, while he was walking to his home, he was run down by an automobile. The motorist did not stop to aid his victim but hurried on. Gingrich was found unconscious in the road by a neighbor, Roy Brubaker. Sheriff Hayes is making an investigation.

Ford-Tribune Suit Arguments Continue

By Associated Press Leased Wire
Mt. Clemens, Mich., May 21.—Arguments on the admissibility of evidence prepared for the Ford-Tribune libel suit continued before Judge Tucker in the circuit court here today. It was predicted that they would last all day. The jury was excluded. Alfred Lucking of counsel for Ford resumed his remarks where they were interrupted by adjournment yesterday afternoon.

Big Class to Be Initiated; Bonds Are to Be Destroyed.

Exalted Ruler Charles E. Miller is busy with various committees making arrangements for two great meetings of Dixon lodge No. 779 B. P. O. E. Elks, in which every member off he lodge will take an exceptional interest. The first of these meetings will be a special gathering on Thursday evening, May 23, at which time a class of fifty candidates will be given the initiatory work. Special work will be devised for these candidates, and the House committee is making arrangements for one of the biggest social affairs in the history of the lodge.

To Burn Bonds
The second big meeting, which in some ways will be the most momentous since the lodge moved into its present fine building will be held Monday evening, June 9. At that time the last of the indebtedness against the building will be paid and the bonds will be burned. A special program, centering about Grand Exalted Ruler B.R. Campbell will be given in connection with the destruction of the last papers of indebtedness, and a monster social session with plenty of entertainment will be arranged. Special committees are now at work on these features.

Pride in Order
Dixon Elks are taking more pride in their order than ever before, not so much because of the liquidation of indebtedness against the building, but rather because of the great work the Elks have done in the war and are doing in the reconstruction work, especially that phase dealing with the aid of disabled soldiers, sailors and marines.

The Elks and Uncle Sam have joined forces to take care of our wounded soldiers, sailors and marines. And something is going to happen "tout de suite," as our American dough boys used to say in France. For when the Benevolent and Protective Order of Elks tackles a thing, it sees that thing through to a successful finish.

Uncle Sam has been trying to look out for his disabled fighters through the Federal Board for Vocational Education and that board has done splendid work up to date. But, through inability to complete insurance records and because of other obstacles, it has been severely handicapped. Now, however, the Elks have raised a large fund for the immediate practical assistance of our crippled warriors, and they are using that fund in direct co-operation with the Federal Board.

The story of this "deal for a square deal," for wounded fighters, which has been made between the Elks and the Federal Board for Vocational Education is not one of uplift or professional charity. It is a story of "first aid" for our Yankies who fought and were permanently disabled—a story of helping our helpless American heroes to help themselves.

MRS. DREW'S FUNERAL HELD TOMORROW P.M.

The funeral of Mrs. Mercy A. Drew, whose death yesterday morning at her home, 629 North Galena avenue, was reported in last evening's Telegraph, will be held at the home at 5 o'clock tomorrow afternoon, F. E. Siple, of Oregon, minister of the Church of God, of which she was a member, officiating.

Mercy A. Nowell was born in York, Me., March 4, 1831. She was married to Henry J. Drew in October, 1855, and they came to Illinois in 1856, living near Oregon one year and then coming to Dixon in the fall of 1856. Since that time her home had been in this city. Six children were born to Mr. and Mrs. Drew: Emma, who died in 1863; Ira, who was drowned when the Dixon bridge fell, May 4, 1873; Rilla, of Glenwood, Iowa; Joseph H., Ada A., and Anna E., of Dixon. She is also survived by four grand children: Mrs. J. A. Guttery, of Pilger, Neb.; Lee and Howard Drew of this city, and Herbert Drew of Cloquet, Minn., who is now on his way back from Germany where he has been with the American Army of Occupation; one brother, John E. Cooper, of Northwood, N. H.; and one sister, Mrs. Van Nutter, of Manchester, N. H.

Denies Mrs. Wilson Took Airplane Trip

By Associated Press Leased Wire
Paris, May 21.—A statement appeared in one of the Paris morning newspapers today to the effect that Mrs. Wilson, wife of the president had made a trip yesterday in an airplane over Versailles and its suburbs. This statement was authoritatively denied this morning at President Wilson's Paris residence.

AT LUTHERAN CHURCH.

Dr. E. F. Krauss, president of the Lutheran Theological Seminary at Maywood, Ill., and Dr. R. B. Peery, pastor of the Lutheran church at Polo, have been in Dixon today and will speak at the services this evening at St. Paul's church at 7:30 o'clock.

City Treasurer Harry Over, of Sterling, was a visitor in Dixon yesterday afternoon.

ENGINE TROUBLE HOLDS NC-4 IN PONTA DELGADA

Weather Conditions in
East Atlantic Are
Favorable Today.

By Associated Press Leased Wire
Washington, May 21.—Although weather conditions were extremely favorable, Lieutenant Commander Albert C. Read was unable to get the seaplane NC-4 away from Ponta Delgada today for the flight to Lisbon, Portugal, because of engine trouble which developed when the ship was being tuned up for the start.

Dispatches to the navy department indicated that the motor trouble was not serious and officials expected Commander Read to get away at daybreak tomorrow to complete the first trans-Atlantic journey by air.

Commander John H. Towers, trans-Atlantic flight commander has recommended that the NC-4, which sank at sea, be stricken from the navy list as "lost at sea," and that the NC-3 be placed out of commission for rebuilding when she arrives in New York. The NC-3 is now being taken apart at Ponta Delgada preparatory to being shipped home.

By Associated Press Leased Wire

London, May 21.—(10:27 a. m.)—The American navy seaplane NC-4 will not start for Lisbon from Ponta Delgada today, according to a wireless dispatch received here by American naval authorities. The engine of the seaplane is failing to work satisfactorily, making a postponement of the flight imperative.

ENGINES DEVELOP TROUBLE.

By Associated Press Leased Wire
Washington, May 21.—Resumption of the trans-Atlantic flight by the naval seaplane NC-4 again has been delayed. A message to the navy department early this morning from Admiral Jackson at Ponta Delgada, said one of the plane's engines had developed trouble and that the start for Lisbon would not be made today. No mention was made of weather conditions.

PLANS FOR BIG RECEPTION ARE MOVING FORWARD

Committee Now Awaiting
Word of Probable Date.

With all preliminary arrangements made for the big welcome reception for Lee county soldiers, to be given here upon the arrival in Dixon of old Company G, the committee in charge of that work are resting on their oars pending announcement of the probable date of the company's demobilization at Camp Grant. The Lee county fighters will arrive in New York on the America Sunday and it will probably be a week or ten days before they arrive in Camp Grant; and until the probable time of their arrival at the cantonment is known but little more can be done by the committees.

Arrangements are being made to serve the boys a big banquet at the Elks' club on the day of the company's arrival home, all of the returned soldiers, sailors and marines of the county to be invited to the feed, and a big committee is now at work making arrangements for that feature.

Contractor Baume has completed the plans for the Triumphal Arch which is to be erected on Galena avenue between Second and Third streets and the erection of the arch, which is to carry a big flag pole and be illuminated by hundreds of electric lights, will begin in a few days.

Chairman Charles E. Miller has already been in communication with booking agencies to secure free street attractions, and a number of agents have visited him. Several high class acts have been tentatively engaged, and it is now assured that the affair will be the biggest thing of the kind in the history of the county.

Arthur Black, formerly connected with the Dixon Home Lumber & Fuel Co. is here for a short visit with friends. He is enroute to Indiana where he has oil interests.

SEN. SHERMAN OPENS FIGHT TO SEPARATE COVENANT AND PEACE

Says He Will Introduce
Resolution on Friday
and Speak for It.

By Associated Press Leased Wire
Washington, D. C., May 21.—Senator Sherman, republican, of Illinois, announced today that on Friday he would introduce a resolution in the senate proposing separation of the covenant of the league of nations from the peace treaty. The senator plans to speak on his resolution and Senator Reed, democrat of Missouri, another opponent of the league plan, also expects to speak at that time.

Sensor Sherman's resolution would declare it the sense of the senate that the treaty and the covenant be considered separately so as to afford opportunity for a vote on each.

CITY TO ENFORCE QUARANTINE RULES

The city health department calls the attention of the public to the matter of breaking quarantine and the penalty attached for such violation. Numerous complaints have been registered with the department of late that persons are endangering the health of the entire community. A fine of \$200 and imprisonment is provided by the state law for such a violation and Commissioner Slothower of the department of public health and safety has ordered that in cases where violations are found the party breaking the quarantine shall be prosecuted.

Governor Commutes Cleminson Sentence

By Associated Press Leased Wire
Springfield, Ill., May 21.—Governor Lowden today commuted from murder to manslaughter the sentence of Hal-dane Cleminson of Chicago, who was convicted in 1909 on the charge of murdering his wife. It is the announced purpose of the division of pardons and paroles to parole Cleminson.

It is understood that the evidence submitted in the Cleminson case is considered as circumstantial. Cleminson is now working on the honor farm at Joliet.

5,000 St. Paul Union Men Out on Strike

By Associated Press Leased Wire
St. Paul, Minn., May 21.—Members of sixteen different labor unions here, estimated at 5,000 men, went on strike at 8 a. m. today in sympathy with common laborers, who are on strike demanding 50 cents an hour, a raise of ten cents an hour, with a nine-hour day and recognition of their union.

OTHER AIRPLANES PREPARE TO TRY TO CROSS OCEAN

All Hope That Hawker
is Safe Abandoned
By His Friends.

By Associated Press Leased Wire
St. Johns, N. F., May 21.—Hopes for the safety of Harry G. Hawker and Commander Mackenzie Grieve, missing since they set out eastward through the air on Sunday in their Sopwith biplane for Ireland, was virtually abandoned today by the British fliers preparing here to take wing in their wake. News of the safety of the NC-3 after being so long on the water had been a source of encouragement, but it is recognized that the Hawker-Grieve machine carried only a cockle shell emergency boat as compared with the stout hull of the American naval plane.

Rayham Repairs Plane
The skeleton of Frederick R. Rayham's Martinsyde plane, a thing of frail appearance stripped of its covering of linen and veneer was set up in a repair shop today to be reassembled.

Captain C. W. F. Morgan indicated that he would not fly with Rayham in the attempt to win fame for which the machine is being rebuilt. He said when he recovered from his injuries he would make an effort to obtain a new plane and start an independent flight for the British Isles.

An attempt is to be made by the several expeditioners here preparing for flights to obtain more satisfactory weather reports than heretofore received. Meteorologists of the expeditions considered defects due to transmission delays and a request will be made of the British air ministry for more voluminous reports.

Others Making Ready.
Undaunted by the Sopwith's disappearance, which must be taken into consideration as part of the hazards of trans-Atlantic flight, members of the other cross ocean expeditions today continued to mature their plans for flights, with the next full moon, three weeks hence. From Harbor Grace came word that the Handley Page super-bomber would be in the air within ten days instead of a fortnight, as the assembling of this machine is being expedited.

Captain Alcott of the Anglo-American team, which will attempt a flight in a Viny bomber, expects the latter machine to reach here tomorrow or Friday. While here he will use as his base the Mount Pearl plateau airbase vacated by Hawker. Flying light to Harbor Grace he will there take on a full load of 366 gallons of gasoline before "hopping off." His plane will have a range of 2,440 miles. Captain Alcott said today that he would carry as life saving equipment only an inflatable vest, as he considered other contrivances of such doubtful value that he would not burden his machine with them.

Advocate Evangelism to Check Bolshevism

By Associated Press Leased Wire
St. Louis, May 21.—Evangelism as a means of eradicating bolshevism and I. W. W.ism was advocated by the board of home missions in its report to the general assembly of the Presbyterian church U. S. A. today.

"Unless the masses are taught the principles of religion the mad fury of bolshevism, with its twin scourge atheism, will become universal," warned the report.

RANTZAU SEEKS MORE TIME FOR COUNTER REPLY

German Leaders Tell
A. P. Treaty Will
Destroy Her.

By Associated Press Leased Wire
Paris, May 21.—Count Von Brock-dorff-Rantzau, head of the German peace delegation, has asked an extension of time for Germany to present her reply regarding the peace terms.

The count stated that further notes were being prepared and that it would be impossible to complete them by 1 p. m. Thursday when the time limit is up.

It is believed, says the Havas agency that the request for the extension will be granted.

The note says the Germans desire more time to study a number of questions in the treaty which they have not yet had an opportunity to examine. There is no official intimation regarding the decision of the allied and associated powers on the request.

RUIN GERMANY ECONOMICALLY.

By Associated Press Leased Wire
Berlin, Tuesday, May 20.—(Delayed)—Germany declines to sign the peace terms laid before it because they spell the "economic destruction, political dishonor and moral degradation of the entire German nation not only for the present but also for still unborn generations," was a statement authorized by the cabinet this morning through the Associated Press.

"That these consequences must logically follow acceptance of the peace conditions the American press itself has recognized without question," the statement continues. "Toward them Germany took the standpoint that acceptance of such conditions could not be demanded and that the sentence was unjustified in imposing such demands."

NEGRESS HELD ON BOOTLEGGING CHARGE THIS A. M.

Emma Pottee, Mentioned
in Mex. Murder
Case, in Jail.

Mrs. Emma Pottee, also known as Mrs. Emma Kinney, proprietress of a colored resort near the Sandusky Cement plant is in the county jail under bonds of \$500, which she has been unable to furnish, held on eight charges of selling liquor in anti-saloon territory and one for nuisance. Mrs. Ethel Weaver, companion of Mrs. Pottee is packing her belongings preparatory to returning to her home in Chicago.

Sheriff Frank Schoenholz and State's Attorney Harry Edwards went to the Pottee place this morning armed with a state warrant for the arrest of the woman for the violation of the liquor law. A quantity of bottled beer was found in the cellar of the house and other brands of liquor were found in the rooms. Mrs. Pottee was brought to Dixon and placed in the county jail in default of the \$500 bond and at once wired to her husband, Edward Pottee, of Chicago, requesting that he come to Dixon at once, as she was in trouble.

OBITUARY.

GUY FURLEY.

From the Laurel, (Neb.) Advocate the following information concerning the death of a former resident of Palmyra is reprinted:

Word was received here late Wednesday evening of the death of Guy Furley, which occurred at 9 o'clock in a hospital at Mankato, Minn., where he had been living since last October. He was standing in a bank about 1 o'clock in the afternoon when he suffered a stroke of apoplexy—his third. He was taken at once to a hospital but did not regain consciousness.

Mr. Furley's health began to fail two years ago and it has been known ever since that his death might occur at any time; nevertheless, the news was a shock to his parents, Mr. and Mrs. C. F. Furley, neither of whom are in very good health. Owing to this, their friends persuaded them not to go to Mankato and G. R. Morrow, formerly of Laurel, who lives there will bring the body and the family here. They are expected Thursday and this afternoon a committee of Masons go to Sioux City to meet him.

At this writing funeral arrangements are not completed, but the service will probably be held Friday at the home, Rev. W. O. Harper delivering the sermon and the Masons order conducting the rites at the grave.

Guy Leslie was the only child of Mr. and Mrs. C. F. Furley and was born at Prairieville, Ill., Nov. 19, 1875, being 43 years old last birthday. He came to Laurel with his parents in 1899 and for some time was associated with his father in the livery business. In 1902 he moved to Gladbrook, Ia., where he engaged in the rug business. A few years later he went to Britt, Ia., where he remained five years and then to Marion for about four years. From Marion he went to Ocean Park, California, where he was in the banking business and continued to reside until two years ago, when he moved to the ranch near Hot Springs, S. D., and thence to Mankato, last fall.

He is survived by his parents, Mr. and Mrs. C. F. Furley, his wife, Bessie Hoyt Furley, a three-year-old daughter, Rena Mae Furley, now Mrs. Walter Barbour of Brunswick; also a number of uncles, aunts and cousins.

Mr. Furley was a Chapter Mason and a Knight's Templar, being the first man made a Mason by the Laurel lodge while it was still working under dispensation.

Guy was popular among the younger set in Laurel during the earlier years when he lived here and on his numerous return visits has kept up his acquaintance so that practically all our people knew him and will join The Advocate in extending the deepest sympathy to his loved ones in their great bereavement. Even when death is looked for the shock of it cannot be wholly obliterated and the hearts of all go out to those who mourn the sudden

KAFFIR BOYS STRONG ON SUMMER FURS

♦ Kaffir Singers for Centenary Celebration ♦

Summer furs are no novelty to these smiling young persons from Kaffirland, who are shown featuring the expensive leopard-skin and other valuable fur costumes. Long before wearing furs in the hottest weather became vogue, these denizens of the Dark Continent and their progenitors were shielding themselves from the sun's fierce rays with pelts which would cost hundreds of dollars in any first class furrier's place. The smiles are the Kaffir Singing Boys, obtained for the Methodist Centenary Celebration at Columbus, O., June 29 to July 13, as part of the exposition's African exhibit of what the Methodist missionaries have done for the far off peoples of the world.

These boys represent five African tribes speaking different languages and demonstrating the possibilities of the young life of that continent. They sing in three

languages, present war scenes, wedding scenes, demonstrate the power of the witch doctors, sing their marching songs in their native way and also sing in pure English. They were trained by J. H. Balmer, a noted English traveler, explorer and authority on South Africa, a Fellow of the Royal Geographical Society. He brought them to the United States.

African huts forming a kraal have been constructed in the Africa building at the Centenary Celebration, the appropriate setting for the groups of native Christians and exhibits brought from that great continent. The Africans range from the black men of the Congo to the white natives of Northern Africa, and the scenic effects range from jungle huts to replicas of the prehistoric edifices left by the ancient Romans.

MAJ. GEN. WOOD TO DIRECT 33RD CHICAGO PARADE

Reception of 7,000 Men of Division to Be Big Affair.

By Associated Press Leased Wire

Chicago, May 21.—A great reception is awaiting the homecoming of Illinois' famous Prairie division, expected here in a few days. According to latest information from the war department at Washington, the arrival will be in three sections of 7000 to 8000 men, a few days apart.

Chicago will see the 23,000 soldiers who are left in the hard fighting division as they march through the downtown district in three most imposing military spectacles. A dozen lands are to be stationed along the line of march to strike up as the regimental bands stop playing. Groups of high school cadets are to gather at street corners to lead the cheering.

Governor Lowden's welcome committee has obtained a promise from Maj. Gen. Wood to direct all military features of the program. "The handling of the parade and loop throughs," said Walter H. Wilson of the governor's committee, "will require exceptional military genius. For this reason we have decided to leave it to Gen. Wood."

A luncheon is being arranged and L. E. Myers named "mess officer" has ordered 8000 dinners of downtown hotels.

According to Col. William Nelson Pelous, chairman of the Chicago soldiers and sailors welcoming committee, other Prairie division organizations probably will take part in the parade.

Coal Operators of Nation in Meeting

PEACE SUMMARY

By Associated Press Leased Wire

The definite statement that Germany will not sign the peace terms as they were presented to her plenipotentiaries at Versailles is made by the German cabinet through the Associated Press.

Statements along a somewhat similar line by President Ebert, Premier Scheidemann and other Germans in high places have preceded this one. Meanwhile, European dispatches show that Germany's representatives are still endeavoring to secure modifications of these terms. Thus another note was sent yesterday by the German peace mission at Versailles to the secretariat of the peace congress. This is the tenth communication forwarded to the allies by the Germans since they received the peace terms. The contents of the notes are not as yet known.

Today or tomorrow the German representatives are expected to transmit to the allies a comprehensive statement on Germany's attitude towards the peace treaty as a whole, specifying what points they accept and what they desire to have modified. The 15-day limit for them to make known their standpoint expires Thursday. Up to yesterday, at least, the prevalent opinion in Paris seemed to be that notwithstanding all their protests, the Germans ultimately would sign the treaty.

Premier Orlando of Italy has gone to Rome for a conference with members of his cabinet on "certain interior and foreign questions," according to a Paris dispatch. It seems probable, therefore, that the peace terms will not be presented to the Austrian delegation before Friday when the Italian premier is due to return to Paris.

In view of the fact that the settlement of the Italian and Jugo-Slavic claims to Fiume and parts of Dalmatia are still not settled and that every effort has been made to bring about an agreement before the peace terms are laid before the Austrian peace mission, it may be assumed that Signor Orlando's flying trip to Rome indicates some new development in the work of adjusting the situation. Apparently Premier Orlando will at the most remain at Rome only a few hours.

John Schumacher, who represented Tyrol on the Austrian peace delegation, has returned to Vienna. It is stated in Paris advices. It is pointed out that he was bitterly attacked by the Italians and the French press for his activities

against the Italians at Trieste, where he was stationed during the war. It is said that Chancellor Karl Renner, chief of the Austrian mission, sent him back to Vienna in the interest of harmony during the negotiations.

Flour Millers Want Hand in Price Fixing

By Associated Press Leased Wire

Louisville, Ky., May 21.—Approximately 1,500 members of the community flour millers association of America in annual convention here, adopted a resolution yesterday requesting Director Barnes of the United States grain corporation to withhold decision regarding application of the wheat guarantee law until recommendations of the association are presented for consideration.

It is said the association, representing 10,000 millers shortly will ask for representation on the advisory board of the grain corporation and a larger voice in price fixing and disposal of the 1919 wheat crop.

TOO LATE FOR ENEMY TO DENY AGGRESSION, WAR RESPONSIBILITY

Clemenceau in Reply to Rantzau Says Time is Long Since Passed.

By Associated Press Leased Wire
Paris, May 21.—It is too late for Germany to seek to deny both the aggression in the war and her responsibility for it. This declaration is made by Premier Clemenceau, as president of the peace conference, in replying to the German note on reparations, the text of which with the reply was made public last night.

The argument put forth by Count Von Brockdorff Rantzau, was that Germany did not start a war of aggression, that the German people were convinced that they fought a defensive war and that the present German government cannot be held responsible for "faults" of former German government.

Premier Clemenceau takes up the points made by the German delegation and declares that the German government last November made no protest against the charge in a note of Secretary of State Lansing that Germany was the aggressor. The president of the conference points out further that Germany made the French government of 1871 and the Russian government of 1917 responsible for the acts of the imperial regimes in France and Russia.

Rantzau's Complaint
The peace conference last night made public the text of the German note regarding reparations and the reply made by Premier Clemenceau as president of the conference.

The German note reads:

"At Versailles, May 12, 1919.
"To his excellency, M. Clemenceau, president of the peace conference, Sir:
"In the draft of the peace treaty submitted to the German delegates, part VIII, concerning reparation, begins with article 231 which reads as follows:
"The allied and associated governments affirm and Germany accepts the responsibility of Germany and her allies for causing all the loss and damage to which the allied and associated governments and their nationals have been subjected as consequence of the war imposed upon them by the aggression of Germany and her allies."

Germans Misunderstood

"Now the obligation to make reparation has been accepted by Germany by virtue of the note from Secretary of State Lansing, of November 5, 1918, independently of the question of responsibility for the war. The German delegation cannot admit that there could arise out of a responsibility incurred by the former German government in regard to the origin of the world war any right for the allied and associated powers to be indemnified by Germany for losses suffered during the war.
"The representatives of the allied and associated states have, moreover, declared several times that the German people should not be held responsible for the faults committed by their governments. The German people did not will the war and would not have undertaken a war of aggression. They have always remained convinced that this war was for them a defensive war.

Disagree on War Origin

"The German delegates also do not share the view of the allies and associated governments in regard to the origin of the war. They cannot consider that the former German government as the party which was solely or chiefly to blame for the war. The draft of that treaty of peace transmitted by you contains no facts in support of this view; no proof of the subject is furnished therein. The German delegates therefore beg of you to be so good as to communicate to them the report of the commission set up by the allied and associated governments for the purpose of establishing the responsibility of the authors of the war.

"I pray accept, Mr. President, the assurances of my high consideration.
(Signed) Clemenceau, President."

The text of the reply of Premier Clemenceau is dated May 20, 1919, and is as follows:

"Mr. Chairman: In your note of May 13 you state that Germany, while accepting in November 1918, the obligation to make reparation did not understand such an acceptance to mean that her responsibility was involved either for the war or for the acts of the former German government and that it is only possible to conceive of such an obligation if its origin and cause is the responsibility of the author of the damage." You add that the German people would never have undertaken a war of aggression.

Yet, in the note from Secretary of State Lansing of November 5, 1918, which you approve of and advise in favor of your contention, it is stated that the obligation to make reparation arises out of Germany's aggression by land, sea and air."

Allegation Well Founded

"As the German government did not at the time make any protest against this allegation, it thereby recognized it as well founded. Therefore, Germany recognized in 1918, implicitly but clearly, both the aggression and her responsibility.

"It is too late to seek to deny them today.

"It would be impossible, you state further, that the German people should be regarded as the accomplices of the faults committed by the former German government." However, Germany has never claimed, and such a declaration would have been contrary to all principles of international law, that a modification of its political declaration would have been contrary to all principles of international law, that a modification of its political declaration would have been contrary to all principles of international law, that a modification of its political declaration would have been contrary to all principles of international law.

Cannot Give Report.

"Finally, you ask that the report of the commission on responsibility be communicated to you. In reply we beg to say that the allied and associated powers consider the reports of the commissions set up by the peace conference as documents of an internal character which cannot be transmitted to you.

AMERICAN COMMITTEE IN FRANCE TO PLEAD FOR IRELAND'S FREEDOM

Diarmuid Lynch

Eamon de Valera

Three prominent Americans of Irish ancestry have arrived in France to voice the sentiment of the vast majority of American citizens that the delegates selected by the people of Ireland to present the case of the Irish Republic be heard at the Peace Conference. Failing that, the delegates will attempt to obtain audience for themselves at Versailles. If they fail again, they will return to their

homes in America, convinced as Frank P. Walsh, chairman of the delegation phrases it, that "we have no other function than to tell the world that the pledges made regarding the rights of all people for self-determination have not been carried out."

Former Governor Edward F. Dunne of Illinois and Michael J. Ryan of Philadelphia, the other American

delegates, stated on their arrival that America has always spoken for small nations and as she spoke for Cuba she now speaks for Ireland. Mr. Walsh, principal spokesman for the delegation, said:

"We are American citizens and we give no allegiance to any other nation, and yet we have come to France to ask something for another nation which has sons and daughters all over the world. We represent those people in America who believe in all the pledges made by this country when we went into war."

"Technically Ireland is represented, but we shall ask that she be represented by the delegates chosen by her people along the lines laid down by the United States when our country declared a state of war to exist. If that is denied, then under the terms by which we applied for our passports at Washington, we shall ask for the right to present their cause at Versailles."

EIGHT-HOUR DAY FOR WOMEN GETS SENATE APPROVAL

Upper House Defeats Brady Bill for Higher Taxes.

By Associated Press Leased Wire
Springfield, Ill., May 21.—The senate today passed 36 to 4, the Brady bill amended to limit women's working hours to nine hours in any one day and 48 hours in any week. Mercantile establishments, hospitals and canning factories in rush seasons are exempted from the operation of the proposed law as amended. The bill now goes to the house.

By vote of 24 to 17 the Brady bill fixing a maximum tax rate of \$2.35 for corporate purposes in Chicago failed of passage. Before the vote was announced Senator Eitelson changed his vote from aye to nay and gave notice that he would move tomorrow for re-consideration. Twenty-six votes were required for passage.

The Brady bill provides a maximum tax rate of \$2 for cities other than Chicago and eliminates the provision from the present law requiring a referendum on a city tax rate exceeding \$1.20.

AMERICAN "COLT 45" WAS BEST WEAPON IN WAR

Government Report on Small Arms and Tanks Made Public By War Department is of Great Interest.

By Associated Press Leased Wire
Washington, D. C., May 21.—Machine guns and small arms produced by the millions, ammunition turned out by billions of rounds and tanks built by thousands when the armistice ended hostilities, furnish the subject of chapters made public today of the War Department's history of the "material" side of winning the war.

The story of machine gun production, about which such a hot controversy waged in Congress as a result of the failure of the American army to adopt for standard general use the Lewis weapon used successfully abroad, is told as follows:

"The manufacturing facilities for machine guns in this country were much more limited in extent than the public had any notion of them (when the United States entered the war) or today. We had at the outbreak of the war only two factories which were actually producing machine guns in any quantity at all.

"It was therefore evident that we had to build up almost a completely new capacity for production. Nevertheless, we took advantage of what facilities were at hand; and at once, in fact within a week after the declaration of war, were placing orders for machine guns. In this connection the reader should bear continually in mind that throughout the development of machine gun manufacture we utilized all existing facilities to the limit in addition to building up new sources of supply.

"In other words, whenever concerns were engaged in the manufacture of machine guns, whatever their make or type, we did not stop the production of these types in these plants and convert the establishments into factories for making other weapons; but we had them continue the manufacture in which they were engaged, giving them orders which would enable them to expand their facilities in their particular lines of production."

The statement shows that the two Browning guns, the heavy and the light automatic rifle (of the type now in use by the troops in France) were produced by the special test board which held a conference in May, 1915, "the most effective guns of their types known to the members," in addition to being designed for the purpose of quantity production. At the same test improved Lewis guns also proved highly efficient and were recommended by the board. Subsequently the Lewis guns were shifted to aircraft work because of special adaptability and on recommendation of General Pershing's staff.

The report says there was great dearth of heavy machine guns for aircraft work, to be synchronized with propellers. This shortage existed in the French and British services as well as in the American. The Browning aircraft gun would have met the requirements, but it would be a long time before it could be produced in quantity. In seeking a stop gap weapon until the Browning could be ready, the Ordnance Department, by "one of those surprising and almost accidental successes" sometimes encountered, found that a modified Marlin gun which could be quickly produced met all requirements. General Pershing cabled in November, 1918, "Marlin guns now rank as high as any with pilots, and are entirely satisfactory."

"The first twelve American divisions to reach France," the report continues, "were armed with Hotchkiss heavy machine guns and Chauchat automatic rifles by the French government. More than 1,000 Vickers heavy guns pro-

duced in the United States were traded to the French as they were needed in French aircraft. During May and June 1918, eleven American divisions sailed, all equipped with Vickers heavy guns built in the United States, and received Chauchat rifles in France. After June all divisions to sail were equipped with the standard American weapons the light and heavy Brownings."

The work of the light Brownings is declared to have been so spectacular as compared with any existing weapons of this character that when they were demonstrated in France the officers of the American Expeditionary Force promptly decided to increase the equipment of infantry troops by 50 per cent adding enormously to the production burden at home. The heavy Brownings functioned so well that an official report is quoted telling of the work of 17 guns which were tested immediately after they had been engaged with the enemy in a severe action and while they still were encrusted with rust and mud and bearing shrapnel scars. Without being cleaned in any way each gun fired a belt of 250 cartridges without a malfunction.

The demand for light Brownings was so heavy that when the armistice was signed the department was driving forward production to the end that British, Belgian and French troops might be equipped with the weapon, these three nations having asked for supplies of this latest American addition to the fighting equipment.

Up to November 11 the production of Browning rifles was 52,238, a majority of which were in France. In addition 29,000 Chauchat guns had been purchased, so that enough light automatic rifles were in hand to supply 100 divisions or an army of 3,500,000 men. In the same time 41,804 heavy Brownings and enough Vickers guns had been produced to make with the Hotchkiss weapons purchased from the French a total of 54,627 of this type, or enough to equip 200 divisions or an army of 7,000,000.

"At the peak of our production," the report says, "a total of 1,794 machine guns and automatic rifles of all types were produced within a period of 24 hours, and the total production of machine guns in the United States between April 6, 1917, and November 11, 1918, was 185,039 as against 229,238 produced by the French and 181,404 by the British in the same period."

Only the loyal co-operation of the manufacturers with whom "competitive commercial advantage weighed not at all against the national need," made

possible this achievement, the report states.

Other production struggles described in today's chapters include items varying in size from trench knives to the 45-ton Mark VIII tanks of British design of which 1,500 were being constructed in co-operation with the British and 1,450 additional wholly by American enterprise. Only one of these had been delivered up to January 1, 1919, but it is noted that the work on each program on component parts was 50 per cent complete when the armistice was signed. Orders for all but 100 of these tanks have been cancelled.

On November 11, 64 tanks of the French six-ton type had been delivered and by January 31 of this year 291. Of these six were shipped abroad. Orders for 1,000 Mark I light tanks were cancelled as were orders for 15,015 three-ton tanks, fifteen of which had been completed on November 11.

The history of the rifle production, including all of the consideration which led to the adoption of the standardized British Enfield weapon for American use, also is fully outlined. This was another element of the ordnance program that was severely criticized, but the department states that it sees no reason now to change its view that the wisest course was that which was followed. Army experts still hold that the Springfield rifle is the best military weapon made, but it is declared the rifle program would have been "hopelessly delayed," if it had been attempted to equip the forces with those weapons. It is reiterated also that the Enfield rifle as it was in production in American plants when the United States entered the war was an utterly inadequate weapon, while as it was modified, it became second only to the Springfield. Despite the delay due to modification and standardization, all American troops were equipped with modern, efficient, American-made rifles before they left the United States.

"The decision to modify the Enfield," says the report, "was one of the greatest decisions of the executive prosecution of the war—all honor to General John T. Thompson and the other rifle experts who made it."

The total rifle production in the United States from the beginning of the war up to November 9, 1918, was 2,568,267 of which a little more than 300,000 were Springfield rifles.

Consideration attention is devoted to the production of automatic pistols and revolvers for the troops. In the "Colt 45," the standard army automatic developed as a result of Philippine experience by the army and which also was an invention by Brown, the United States forces had a weapon which all Europe could not match for efficiency in action and which brought terror to the Germans when American troops reached the front.

European countries failed to appreciate the value of a large calibre, hard hitting weapon of this type and the chief use of pistols and revolvers in European armies had been as ornamental for officers' uniforms it is said rather than for active fighting.

The result of Europe's neglect," the report says, "was that the small calibre revolvers of the Germans and even of the French and English were toys in comparison to the big Colts that slapped the thighs of American doughboys."

With this weapon, it is stated, "any average soldier with average training can hit what he shoots at. In almost the first skirmish it proved its superior usefulness in trench fighting. Such incidents as that of the single American soldier who dispersed or killed a whole squad of German bayoneteers which had surrounded him struck the enemy with fear of Yankee with the pistol."

This resulted in the addition of pistols to the fighting equipment of the American troops at a rate that overwhelmed the supply. Every effort to increase production was made, the army was forced to resort to 45-calibre revolvers to supplement the supply. The actual rate of production just before the armistice was 1,993 pistols and 1,233 revolvers a day and the total number of the weapons built during the war was 743,663.

The standard American army rifle ammunition proved its superiority in action, adding materially to the accuracy of American small arms fire. Extraordinary measures to produce cartridges in sufficient numbers are recounted in the report and in the fall of 1918 the United States achieved an average monthly output of 284,852,735 rounds against a British average of 259,769,099 and a French average of 129,847,090. During the 19 months the United States was in the war it produced 2,864,954,000 rounds, approximately equaling the French production and comparing with 3,486,127,000 produced by Great Britain.

265,000,000 Silver Dollars Are Melted and Sent to India

By Associated Press Leased Wire

Washington, May 21.—New that the government has completed its war time shipments to India of silver from melted dollars, Director of the Mint Baker has disclosed how thousands of tons of the metal were hauled from the Philadelphia mint to San Francisco in special trains guarded by armed men without loss of an ounce and without general knowledge of the procedure.

Eighteen of these treasure trains made the trip across the continent in the 12 months ending last April 25, with the silver like big bricks piled high in each of the five express cars composing a special train. Two men with automatic pistols at their hips and sawed off shotguns on their laps sat in each car, and later guarded the secret transfer of the white bars from train to ship at San Francisco.

Each silver brick weighed about 62 pounds and was worth \$1000 and each train carried between \$5,000,000 and \$10,000,000 of the bricks. Guarded shipments of silver dollars also were made from the United States treasury in Washington and from the New Orleans sub-treasury to Philadelphia. More than 265,000,000 silver dollars were melted and shipped to India during the year to meet the urgent war demands for coinage.

The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line it entered since 1845—has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff

of technical experts. Not a man among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration.

Every proved betterment is adopted unanimously.

The Brunswick Tire is a combination of acknowledged features—plus Brunswick standards of manufacture.

The result is a super-tire, the like of which you have never known before. The kind of a tire you will gladly join in welcoming.

Yet Brunswicks cost no more than like-type tires.

Try ONE Brunswick. We promise a surprise. And we feel certain that you will want ALL Brunswicks.

Then good tires will have a new meaning to you.

Sixty Years of Milk Protection

The children of our cities are better protected now than ever before. Milk regulations are stricter—the death rate is lower.

In these facts the Borden Institution takes some pride, for the original Borden pure milk code of 60 years ago was the basis for all later milk regulations.

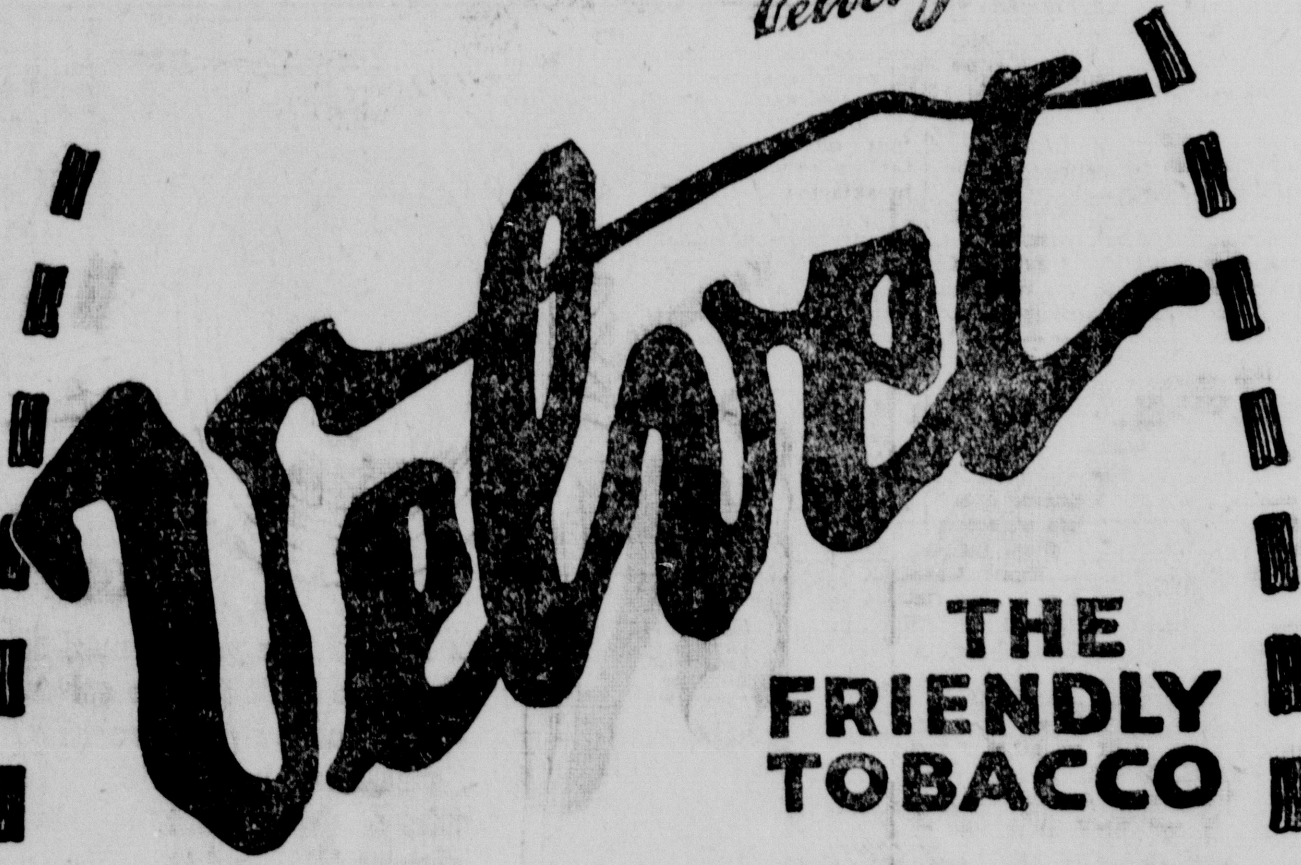

There are Borden Milk Products for every use—for children, table, kitchen or travel. And every one is pure and wholesome.

FOLKS are a heap like tobacco. Thar's hot-headed, bitey folks. Thar's flat, uninterestin' folks. An' then thar's folks like Velvet—mild, but hearty an' fren'ly, too.

Velvet Joe

THE FRIENDLY TOBACCO

"Friendly" is a very good word to describe the positively pleasing quality that sets VELVET tobacco apart.

There is that indescribable something about VELVET that is associated in men's minds with the thought of a friend.

It is a satisfying smoke—never harsh; without a bite. Like a friend it "agrees" with you no matter how much you use it.

Long, patient ageing—in wooden hogsheads—does it. Friendship must ripen slowly. Good tobacco the same way. An army of men have learned this through VELVET.

Today is a good time to get a lot of comfort out of a pipeful of friendly VELVET.

"We can do this (concentrate on the prosecution of the task of winning the war) with all the greater zeal and enthusiasm because we know that for us this is a war of high principles, debased by no selfish ambition of conquest or spoils."

"It is because it is for us a war of high, disinterested purpose, in which all the free peoples of the world are banded together for the vindication of right, a war for the preservation of our nation and of all that it has held dear of principles and of purpose, that we feel ourselves doubly constrained to propose for its outcome only that which is righteous and of irreproachable intention, for our foes as well as for our friends. The cause being just and holy, the settlement must be of like motive and quality. For this we can fight, but for nothing less noble or less worthy of our traditions."

RANTZ U SEEKS MORL. TIME FOR COUNTER REPLY

(Continued from page 1.)

ernments after careful consideration also were prepared to recognize the conditions set up by President Wilson as the basis for the conclusion of peace.

"The declaration of rights emanating from these specific declarations of all the entente powers and the United States constitutes Germany's sole asset in the general moral breakdown of all international politics which has found unsurpassable expression in the Versailles terms.

Will Not Yield Now
"Germany answers them with its clearly juristic right in international law. Toward the political-moral bankruptcy of Versailles the German nation stands as a creditor with undeniable rights, and it is not in a position to yield on this chief point. Germany concluded peace on the basis of President Wilson's fourteen points, which all America had made its own, and all America, every individual, is responsible for the fulfillment of its claims."

Cannot Interpret Rights
"It is not the German people's business to indicate how its rights shall be realized by the 14 points, or especially by the note of Secretary Lansing. That, rather, is the task of those who constructed the 14 points and brought them to acceptance, thereby inducing Germany to lay down her weapons. We do not believe that President Wilson, Secretary Lansing and the American people can take other than this German standpoint. If they do not wish to do that which President Wilson in his message of December 4, condemned categorically, when he said: 'we would dishonor our own cause if we treated Germany in a non-partisan manner and did not insist upon justice toward all, no matter how the war ended. We demand nothing which we are not ready ourselves to admit.'"

Demand Only 14 Points
"And the German people demand nothing more than that which President Wilson announced in this declaration. We demand nothing more than that Americans place the 14 points opposite the peace terms. We do not believe that any one in the United States will then have the courage to claim that there can be found in the peace conditions one single trace left of President Wilson's program."

"And here begins America's definite duty to step in. America either must put its 14 points through or it must declare that it is unable to do so or that it does not want to do so, so that in no case may the world be led to believe that America desires to have the peace conditions count as President Wilson's 14 points."

"That is our demand, to which we cannot imagine what argument from the American side would be effective against it."

THE PROMOTER'S WIFE

By JANE PHELPS.

NEIL SUGGESTS THAT BARBARA LEAVE EARLY
CHAPTER XXIX.

Of course I understood very little of what they discussed. I noticed however that not only Mrs. Orton but the other two women as well as the men seemed perfectly familiar with all the details. Occasionally the hostess would interrupt with some remark, and I noticed that whatever she said received attention. It was not so with the others. As I observed this I recalled what Frederick had said: they were invited to amuse and entertain men like Tearle and Connor. When the coffee was served the discussion had become quite heated. Mrs. Orton, Neil and Tearle talking fast and earnestly. She and Neil were trying to prove to Tearle that if he put up a large amount of money, his returns were bound to be enormous. I noticed that Frederick had not once joined in the conversation.

Finally we all arose from the table and adjourned to the drawing room where card tables had been placed while we were at dinner.

"Mrs. Forbes does not play," Neil's voice startled me. I played an excellent game of bridge, but never had played poker, the game they intended to play. "That is too bad! suppose we do not?"

"I will chat with Mrs. Forbes. You do not need me in the game," Mr. Frederick interrupted. He at once placed a chair for me some distance from the table, and sat himself near, asking permission to smoke. Then: "Why did you do it?"

"I had to," I did not pretend to misunderstand him. "I must find some way to help Neil—instead of having him come here," I spoke very low.

"You are very brave. I don't understand how you accomplished it." Eleanor J. Newman, Superintendent, at Amboy. 12013

"I will tell you some time. I will tell you however that I never liked Mrs. Orton so well as I do tonight. She came to my aid wonderfully."

"She is a remarkable woman—in many ways," he returned slowly. Then for a few moments we did not speak. I noticed that both Neil and Mrs. Orton frequently glanced in my direction. Once I overheard one of the women say: "It's stupid tonight!" and I knew she was referring to my presence. Frederick also had heard and commenced talking. After a few moments another remark was made, so palpably with me in mind that no one could mistake its

meaning. I flushed, to my annoyance, then regained my composure as Neil said: "As you don't play cards, Bab, why not play the piano." Then: "My wife is a finished musician," he added to no one in particular.

"Oh, do Mrs. Forbes! I haven't heard any really good music in ages," Mrs. Orton urged.

I immediately went to the piano. I played gay little airs which I thought would be appreciated. Then at Neil's request more serious music, and music in which I always lost myself. For over an hour I played, then turned around to see Neil get up from the table and stagger toward me. I knew he had been drinking too much wine, yet I was totally unprepared for what followed.

"Go on home now, Bab. You're a good girl all right. I won't have you coming here. Blanche is all right too, she's a brick. But she knows about things, and you don't."

"But I can learn, Neil," I said in a trembling voice, laying my hand on his arm, and not observing Mrs. Orton who had come up behind him. "If I go home will you come with me? Please do, dear."

"Of course he will! there is nothing more to be done with Tearle tonight," she whispered. "If there is I can manage him better than you can. You run along with Mrs. Forbes. And thank you for coming to me tonight," she extended her hand to me. "I have been very glad and proud to have you," she spoke. I knew she meant me to know she admired me for my action.

"I will run along also if you will excuse me," Frederick said. "I have a taxi waiting outside. I will take you home if I may," he returned to Neil.

Long afterward I found out that had the taxi wait sure I intended to be there, and fearing a scene, had planned to get me away.

Army Bears 82,000 with Tuberculosis

By Associated Press Leased Wire
New York, May 21.—Sixty-two thou-
sand men afflicted with tuberculosis
were barred from admission into the
national army, 20,000 others who
reached camps were discharged for the
same reason. At army tuberculosis
hospitals the national tuberculosis as-
sociation announced today, six thousand
men still in the service are being treat-
ed.

Soldiers or sailors honorably discharg-
ed since October 6, 1917, and suffering
from tuberculosis will be given free
hospital care upon application to the
United States public health service or
the bureau of war risk insurance ac-
cording to the association.

The organization announced that plans
for a national campaign of tubercu-
losis prevention would be made at a
conference of federal, state and municipal
health authorities at Atlantic City next
month.

THE REAL HOMECOMING NEEDS NO SPEECH OF WELCOME

AMERICAN POLICY HAS NOT CHANGED GEN GRAVES SAYS

Must Not Interfere in
Russian Affairs He
Tells His Troops.

Vladivostok, Siberia, April 20.—(Cor-
respondence of the Associated Press)—
Major General William S. Graves, com-
mander of the American expeditionary
forces in Siberia has issued a message
to his troops in which he declares that
the American policy in Russia is the
same today as when the Washington
government issued its proclamation at
the time of the sending of the American
forces to Siberia.

The message is entitled “Our duty in
Siberia.” In it Major General Graves
says: “The policy to be followed by our
troops in any country is one to be de-
termined by the executive.

“It was clearly announced in the
most public and solemn manner that the
United States did not contemplate any
interference of any kind with the polit-
ical sovereignty of Russia, any inter-
vention in her internal affairs or any
impairment of her territorial integrity.

“The United States does not intend to
permit any of its agents to interfere
with the sovereign rights of the Russian
people. Our aim has been to carry out
to the letter the policy of our govern-
ment. There has been no interference
in the internal affairs of the Russian
people and no action has been taken by
the United States troops which could
justly be said was taking sides in the
differences of the factions.

“We must realize that every nation
has its ideals and traditions which
should be respected by all and espe-
cially by guests as we are. It is hoped
that every citizen of the United States
in Siberia and especially those wearing
the United States military uniforms will
constantly keep in mind these facts and
fully respect, not only the laws but the
customs and traditions of the people.

“In any body of men as large as the
American expeditionary force, unfor-
tunately there will always be found in-
dividuals who will act so as to bring
discredit to his countrymen. This ex-
position has been no exception to the gen-
eral rule. This fact, however, should
cause all of us to so conduct ourselves
that the Russian people will realize
that the United States soldier is a man
of good habits, self-respecting and hon-
orable.

“In our relation to the political life
of the Russian people the greatest care
must be exercised not to become in-
volved and if we have any views as to
the policies of the contending factions,
these should be expressed to the Russian
people as a most offensive interference
in their own affairs.”

Staving Off Old Age.

Among many other extraordinary
plans for prolonging one's stay on this
interesting planet may be mentioned
that of a South African farmer who
advised people to eat every day four
pounds of bananas steeped in sweet-
ened whisky, and that of a professor
in the University of Pennsylvania who
believed that much could be done in
the way of staving off old age by fre-
quently having one's feet tickled!

Marshall Will Enjoy Baseball More Than Debate on Covenant

By Associated Press Leased Wire

Chicago, May 21.—Byron Bancroft
Johnson, president of the American
baseball league has received from Vice
President Thos. J. Marshall the fol-
lowing acknowledgment of a season's
base:

“My faith in human nature has been
very greatly revived this morning by
a call of Mr. Minor as a messenger from
you, conveying to me a season pass to
the American league games.

“I returned from my vacation and
not finding a pass on my desk, I said
to myself: ‘Even so intelligent and pa-
triotic an organization as the Ameri-
can league has forgotten that there is
vice president.’ I know every one else
had forgotten it, but the iron rather
entered my soul to think that you did
not remember.

“Now, however, the sun is shining,
and whether we shall have a league of
nations or not I am quite sure I shall
get more pleasure out of the perfor-
mances of the American league than I
will out of the performances of the
American senate trying to organize a
league of nations.”

BIG SCHEDULE OF GAMES FOR DIXON GOLFERS

Sports Committee of
Dixon Country Club
Planned It.

Unfavorable weather conditions have
delayed match games at the Country
Club this season, but it is hoped that
the weather man will kindly send some
sunshine before long.

The following games with out-of-town
clubs have now been scheduled:

- May 23—Dixon at Tampico.
- June 5—Polo at Dixon.
- June 17—Dixon at Rockford.
- June 18—Dixon Ladies at Sterling.
- June 26—Sterling at Dixon.
- June 27—Polo Ladies at Dixon.
- July 2—Dixon at Princeton.
- July 4—Men's Handicap Competition
for Trion Cup. (Won by Dr. Hamilton
last year).
- July 10—Dixon at Polo.
- July 16—Sterling Ladies at Dixon.
- July 24—Dixon at Sterling.
- July 29—Tampico at Dixon.
- Aug. 1—Freepoint Ladies at Dixon.
- Aug. 15—Kishwaukee Ladies at Dix-
on.
- Aug. 29—Morrison Ladies at Dixon.
- Sept. 4—Rockford at Dixon.

The dates for the regular annual
tournaments for Directors' cups and for
the Brinton Cup, have not yet been de-
finitely set but these matches will oc-
cur in the latter part of the season.

The games with Polo and Sterling
are for the Tri-County Trophy club
which was won by Sterling last year.
Dixon is planning to put up strong
competition for this trophy in the
matches this season.

All members of the club who can go
to Tampico on Friday this week for the
match with Hennepin Golf club at that
place should notify H. A. Roe, president
or E. B. Raymond, chairman Sports
committee. The trip will be made by
auto, the match being scheduled for 1
p. m. A dozen or fifteen players are
already planning to go.

April Exports Much Larger Than January

By Associated Press Leased Wire
Washington, May 21.—Exports from
the United States in April surpassed the
previous high record of last January by
nearly \$100,000,000. The department of
commerce announced the total today as
\$715,000,000 compared with \$623,000,000
in January.

Imports in April were valued at \$273,-
000,000 or \$6,000,000 less than in April,
1918. The trade balance for the month
in favor of the United States was \$442,-
000,000 and for the ten months ended
with April it was \$3,231,000,000. Ex-
ports for the ten months were valued
at \$5,765,000,000 and imports at \$2,471,-
000,000.

METHODISTS HIT HARD AND BEAT CATHOLICS

Second Game in Twilight
League Was Easily
Won 12 to 1.

The Methodist team, by heavy and
safe hitting, won their game with the
Catholic team in the Twilight base-
ball league last night. The score was 12
to 1.

Lumsden pitched a stellar game for
the Methodists having good control
and much speed. Fitzsimmons, a south-
paw was on the mound for the Catho-
lics, and was hit freely. Lumsden's
pitching was supported by good team
work by his teammates.

The next game in the Twilight league
will be Friday evening when the
Presbyterians and Episcopalians clash.
The lineup of last night's game is as
follows:

Methodists.

COMPTON TO MEET VICTORY LOAN MARK

Reports from Compton, received by
the Lee County Finance Committee
late yesterday afternoon, are to the ef-
fect that the Victory Loan committee of
that precinct had arranged to take care
of the \$5,000 deficit that precinct had
in the Victory Loan drive, thus putting
the community over the top in the
drive. The report was received here
too late for correction of the county
committee's statement published in last
evening's Telegraph.

Honduras Attractive.

With a population estimated at 600,-
000 and an area approximately equal
to that of Pennsylvania, Honduras has
abundant room for development. It
has a tropical climate with few of the
usual disadvantages. The interior is
mountainous and salubrious, with con-
siderable rich land suitable for diver-
sified farming and fruit growing, while
all of the remainder, even the deep
mountain slopes, is used for pasturage.

Kerensky Issues An Appeal for Help to Save Russian People

By Associated Press Leased Wire

Paris, Tuesday, May 20.—(Delayed)—
A. F. Kerensky, former premier of Rus-
sia, and seven other members of the
Russian constituent assembly and mem-
bers of the Parisian union for the regen-
eration of Russia today issued an ap-
peal to the democracies of the world for
prompt action with a view to helping
Russia out of her present chaotic con-
dition.

It proposes the organization of a mis-
sion composed of delegates from all the
powers and including representatives of
organized labor which will go to Russia
and explain to the people and the differ-
ent Russian governments the democra-
tic aims they are pursuing.

The appeal says: “It should be stated
categorically that the different govern-
ments repudiate the idea of any inter-
vention likely to infringe upon the sov-
ereign rights of Russia.”

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jaid Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus tendering urinary and bladder disorders.

Jaid Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

RHEUMATIC PAINS

Quickly Eased By Penetrating Hamlin's Wizard Oil

A safe and harmless preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles.

You will find almost daily uses for it in cases of sudden mishaps or accidents such as sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for earache, toothache, cramp and colic.

Get it from druggists for 30 cents. If not satisfied turn the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

FOR RENT—Office rooms; large, light, hardwood finish, running water, electric light and gas; over the **Dixon Evening Telegraph** office, 124 E. First St. Enquire of **Mrs. Eustace Shaw**, **Evening Telegraph**.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back its Color and Lustre with Grandma's Sage Tea Recipe.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle, at little cost at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

FRESH ADVANCES ON CORN BECAUSE CONTINUED RAIN

By Associated Press Leased Wire

Chicago, May 21.—Fresh advances in the corn market resulted today from continued excessive wet weather and from scantiness of receipts. The new arrivals were even smaller than on yesterday and many sections reported further delays to planting. Buying however was less urgent than of late. Opening prices, which ranged from 1/4c to 1/2c higher, with July 1.65 to 1.65½ and Sept. 1.58½ to 1.59½, were followed by moderate additional gains.

Good demand from the seaboard strengthened oats. After opening 1/4c to 1/2c higher, including July at 69½c to 69½c, the market reacted a little and then hardened again.

Corn for immediate delivery and for May touched the highest price level yet this season. Later, though, the market suffered a sharp setback owing to reports that efforts were being made to cancel big orders for provisions. The close was unsettled, 1/4c to 1/2c net higher, with July 1.65½ to 1.65½ and Sept. 1.58½ to 1.58½.

ATTEND MEETING
OF CATTLE RAISERS

E. J. Countryman and J. C. Wadsworth of this city, E. M. Detweiler of Polo and J. T. Williams of Sterling went to Chicago yesterday where they attended a meeting of Holstein-Friesian breeders of Illinois. The meeting was called for the purpose of effecting a state organization to be known as the Illinois Holstein-Friesian association. Such an organization was perfected and a guarantee fund of \$7,000 was raised among the breeders. County Advisor Craig of Whiteside county was also present at the meeting together with farm advisors from many parts of the state.

The association went on record as favoring the selection of an experienced field secretary who will begin work of organization throughout the state at once. The breeders also took action on a body in favor of the Gregory bill which authorizes the state to pay up to \$50 on each pure bred animal affected with tuberculosis. The federal government now has such a law in operation. Representatives from practically all of the leading agricultural and stock publications were present at the meeting and subscribed toward the guarantee fund.

Wilson Replies to
Notification Cable

By Associated Press Leased Wire

Washington, D. C., May 21.—President Wilson today sent acknowledgment from Paris of the notification cabled him by the special senate committee that the senate had convened in extraordinary session and was ready to receive communications from the chief executive.

"Please express my appreciation to the senate committee of its courtesy," the president's message said, "and say that I have communicated with the congress in the usual manner through the message presented yesterday and express the hope that I may soon be present in Washington to communicate to them full information with regard to international affairs."

The president requested Secretary Tamm to transmit a copy of the cablegram to the special house committee which sent its formal notification in a letter addressed to the president at the white house.

High American Army
Officers to Remain

By Associated Press Leased Wire

Paris, May 21.—(Havas)—In addition to the abandonment of the projected trip to England of General Pershing, the American commander in chief, several of the higher American officers and certain members of the American peace mission, according to reports, have given up the idea of a return to America in the near future.

FAST DEKALB NAG
IN TRAINING HERE

DeKalb Chronicle—DeKalb horse fans will have an opportunity to watch one of the fastest horses in the country this season. William Hiland's Oregon Boy is now at Dixon and in training for the big races and big money.

His horse will start at Aurora in the big circuit. The dates for the Aurora races are July 8, 9, 10, and 11. From there he will go to Ottawa, and then to Streator. He is now in the 212 class and the purse for each of these races will be \$1000.00.

There are from 25 to 30 entered in each race in the above class. Oregon Boy is one of the coming racing stars in the state. Last season he secured first money at the Springfield fair and since then the horse has been in great demand. He was inside of the money in every race last year.

William Hiland has a right to be proud of his Oregon Boy and the DeKalb people are much interested in him. Will will go to Dixon tomorrow to see his horse in training.

FISHER DIVORCE IN
OGLE COUNTY COURT

The divorce proceedings brought by Mrs. Carl Fisher of Rochelle against her husband, Carl Fisher of Brooklyn, were started in the Ogle county circuit court at Oregon before Judge R. S. Farland this morning. Attorney John E. Erwin appears for the plaintiff and Attorney H. A. Brooks and Judge Carnahan of Freeport for the defendant. The suit was started in the January term of the Lee county circuit court and when the plaintiff had introduced practically all of her testimony, the case was thrown out because of the fact that the complainant was not a resident of this county.
